

## **Arini provides super senior financing package to Victoria plc**

**London – 17 September 2025** – Arini, a leading alternative credit manager with ~\$11 billion in assets under management, has successfully provided a super senior financing package, including a Revolving Credit Facility (RCF) and a Term Loan, to Victoria plc, a UK-based company that designs, manufactures, and distributes flooring products globally. The transaction was led by Arini's private credit team. Lazard advised Victoria plc on the refinancing.

The super senior financing package replaced Victoria plc's existing RCF and supported the Company in refinancing its broader capital structure.

"We are delighted to support Victoria plc in this refinancing, ensuring that the company is well positioned for future growth," said Stan Fedorenko, Head of Private Credit at Arini. "The transaction highlights Arini's expertise in underwriting European private credit and demonstrates our ability to originate and structure flexible solutions for European non-sponsor corporates and support their long-term growth ambitions through tailored financings."

Arini acted as Sole Lender in the transaction.
